

Personalized Specialty Pharmacy Care

With Elixir Pharmacy, you can rely on our highly skilled team of licensed pharmacists, who are disease state specialists. They'll design tailored care pathways for you and provide comprehensive care and monitoring to help you achieve your best health. We take a disease and drug-specific approach to caring for patients—going beyond other traditional specialty pharmacies. Our focus is to provide a compassionate human touch and individualized approach to care, resulting in a superior level of patient satisfaction.

Elixir Pharmacy is Your Partner in Complex Specialty Care

Certain conditions, such as rheumatoid arthritis, multiple sclerosis and cancer, require specialty medications with complex treatment regimens. These medications can be limited in availability and very costly. Elixir Pharmacy is a specialty care partner who not only understands your condition but also takes time to understand your unique needs.

- Our dedicated team of pharmacists and care coordinators are specially trained to provide you with comprehensive support 24 hours daily.
- We contact each new patient to understand clinical needs and develop personalized care plans based on your condition and prescribed treatment. We then stay in close communication with you and your doctor throughout your treatment.
- Your medication is delivered safely and quickly to your home or prescriber's office.
- We provide therapy-specific training and education, so you learn how to safely store and administer your medications and understand precautions for side effects.
- We conduct detailed benefit reviews to help you understand out-of-pocket expenses and, when possible, connect you to financial assistance programs.
